

kissing elixirs™

A great kiss is the same in any language. It is a wordless connection- no two are quite the same. We kiss tenderly, wantonly, shyly and enthusiastically. We kiss in the light of day and the dark of night.

We give formal kisses, passionate kisses, Hollywood air kisses, and in fairytales, kisses that revive princesses and turn frogs into princes. One fact holds true for any close encounter, bad breath is the kiss of death.

Like love itself, Kissing Elixirs' products are not for the faint of heart. They will take your breath away.

kissing elixirs™

100% NATURAL FRESH BREATH MIST

Kissing Elixirs Fresh Breath Mist is the first completely natural and modern, effective take on fresh breath that is stylish enough for a fashionable woman to use with pride and natural enough to use with assurance. Kissing Elixirs' decidedly chic and portable design makes it easy to refresh on the go, and like love itself, the extra potent and long lasting, concentrated, minty vanilla flavor burst is not for the faint of heart.

Kissing Elixirs Fresh Breath Mist keeps you ready for any kind of peck, smack, snog or smooch that someone special blows your way. Give sugary breath mints, and artificially sweetened products the kiss-off!
